

SERVING OUR CUSTOMERS SINCE 1965

Founded in 1965, Swift Industrial Power is a family-owned business providing high-quality products and services in the stationary power, motive power, and wireless services markets. We have grown from a single office in East Tennessee to eight locations spread across the southeast and more than 100 employees. Since day one, our philosophy has revolved around our customers and ensuring they are at the heart of everything we do. We focus our energy on becoming a true collaborative partner, who listens first. Our knowledgeable team is adept at providing valuable and tailored solutions, while also delivering responsive and personalized service.
