PowerHOUSE CHARGERS

PHP CHARGER

PROVEN TECHNOLOGY. MADE IN USA. BUILT TO LAST.

PowerHouse Premium Chargers deliver the reliability and low cost of operation based on a proven three-transformer ferroresonant design. The superior quality and reliability represents a real value for even the most demanding applications.
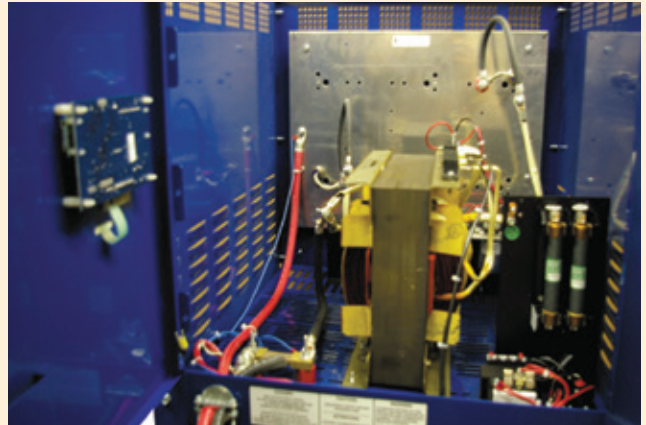

Features & Benefits:

▶ Smart Charge Control with Icon and Digital Display

▶ Fully Automatic

▶ Rugged Cabinet Design

▶ Efficient Power
  – 87% Efficiency
  – 92% Power Factor

▶ cUL Listed

▶ Fail-safe Operation

▶ Highly Reliable with Low Maintenance

▶ Stackable Up to Three High

▶ Long Operating Life: 10+ Years
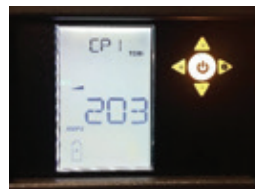

▶ Low Cost of Ownership

🔋 **Conventional**

DESIGNED TO LAST

▶ Component Layout Minimizes Temperature

▶ Lift-Off Front Door for Easy Service Access

▶ Over-Sized Heat Sinks to Reduce Diode Temperatures

▶ AC and DC Components are Mounted to Minimize Transient Noise
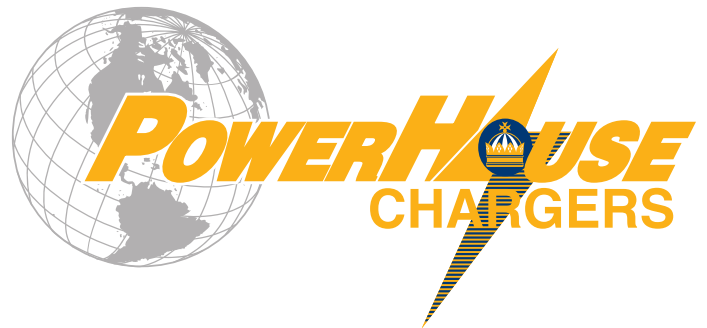

▶ Ac Input Taps Make Voltage Changeovers Quick

46-0301 CONTROL

▶ LED/LCD Display Test at Startup

▶ Digital LCD Display

▶ Charging, Complete and Fault Indicators On Screen

▶ Digital LCD Readout Indicating Ten Numeric Fault Codes

▶ Delayed Start Time Remaining

▶ End of Charge Voltage (VPC), Amps, Run Time, Total Amp-hours, Percent Returned, End Voltage, End Amps

46-0304 CONTROL

▶ Backlit Display

▶ LED/LCD Digital Display Test at Startup

▶ Accumulated Amp-hours, Amp Output, Volts per Cell, Volts, Percent Returned

▶ Total Time of Charge to Present, or to End of Charge

▶ Time of Day, Delayed-start Time

▶ Faults and Errors

▶ Equalize Mode Set

▶ Current Mode of Charger

▶ Previous 100 Charge Terminations
